

OEM weighing kit

System components for reliable checkweighing

ⓘ Benefits

- Easy integration into your own checkweigher solutions, systems and machines
- Excellent price-performance ratio
- Precise measurement results and high process speed

The OEM weighing kit offers high-quality components for integrating a checkweigher unit into your system or machine. Put your trust in globally proven weighing technology from Minebea Intec.

You will save time and reduce costs

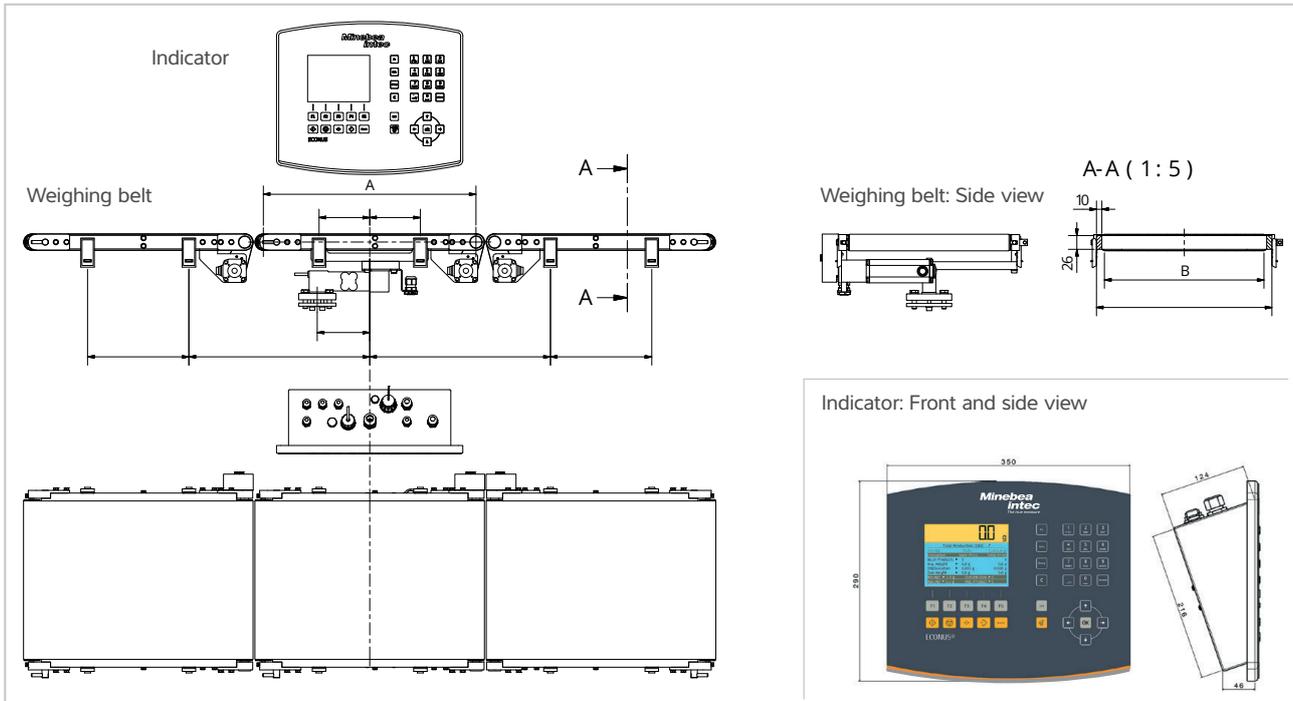

- ⓘ All the components for your In-Line checkweigher in one weighing kit
 - **Indicator**
 - **Weighing table**
 - **Feed and discharge belt**
- ⓘ You can rely on quality and an **excellent price-performance ratio**: Minebea Intec components are globally proven and available around the world.
- ⓘ The **SG load cell guarantees precise weighing results**. The sturdy construction enables throughput of up to 120 items per minute.
- ⓘ There are different load ranges, transport directions and belt sizes available for **easy integration** into your system.

Product description

The OEM weighing kit offers the most important components for checkweighing in one kit:

- Indicator as evaluation electronics, display and operator terminal
- Feed and discharge belt, consisting of tables, belts and motors
- Weighing table, consisting of SG load cell, weighing belt, motor and mounting kit

OEM weighing kit components

Legend A: Centre-to-centre distance of the conveyor belts
B: Conveyor belt width
